

toughlove

---

Toughlove has been created in response to a general requirement for hard-wearing street furniture that upholds a level of design integrity.

Robust and durable, Toughlove is constructed from mild steel and flame retardant rubber, with a painted finish available in a range of colours.

It is ideal for situations where extreme use and potential abuse is likely. Its steel plate construction makes it highly resistant to physical damage, whilst the finish is easily repaired with a readily available brush-applied finish.
